Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach a fixed frame disposed around a movable frame which is disposed around a central stage, where the central stage is coupled to the movable frame with a first flexure having a first plurality of torsion beams and the movable frame is coupled to the fixed frame with a second flexure, where the central stage and the movable frame are capable of decoupled motion and where the movable frame includes a main body coupled to the second flexure and an end bar coupled to the first flexure and a support member coupled between the main body and the end bar, where the support member is constructed from a material of differing expansion than a material of the main body.

The prior art does not teach a fixed frame disposed around a movable frame which is disposed around a central stage, where the central stage is coupled to the movable frame with a first and second flexure and the movable frame is coupled to the fixed frame with a third flexure and a fourth flexure, such that the central stage and the movable frame are capable of decoupled motion, and where a first blade is coupled to a bottom of the central stage, the first blade residing beneath a bottom plane of the central stage and extending perpendicularly from the bottom plane of the central stage and a second blade coupled to a bottom of the movable frame, the second blade residing beneath a bottom plane of the movable frame and extending perpendicularly from the bottom plane of the central stage.

Art Unit: 2834

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
